

# Welcome to Hummel Eye Associates!

- ❖ **Advanced Cataract Surgery, including Crystalens®, ReStor® and ReZoom® presbyopia-correcting lens implants**
- ❖ **LASIK Laser Vision Correction**
- ❖ **Eyelid Surgery/Botox®/Restylane/Perlane**
- ❖ **Complete Family Eye Care**

Thank you for choosing **Hummel Eye Associates** as your eye care specialists. We are dedicated to helping you enjoy a lifetime of better vision through advanced technology and personalized patient care.

In order to streamline your waiting time when you check in, **we ask you to review and complete both the front and back of the enclosed forms.** You can mail or fax the completed forms to us in advance, or bring them with you to your appointment.

We are committed to making our services as affordable as possible. We are happy to file your insurance for any covered services. **Co-pays, deductibles and non-covered services will be collected at the time of service or optical purchase.** We accept all major credit cards as well as cash and checks. **Easy payment plans are available for elective procedures, like LASIK, advanced technology IOLs and cosmetic procedures.**

- ❖ **We are Preferred Providers with dozens of medical insurance and a few vision plans. Many require the patient to obtain prior authorization, a referral from a primary care physician or check a list to select a participating doctor. If your plan has such requirements, please be sure you have obtained the proper documentation before your appointment.**
- ❖ **We are not participating providers with Generations or Global Health. If you have joined this HMO, you are required to see Oklahoma City Clinic doctors.**

Please bring your current medical insurance card and vision plan ID, if different, to your appointment. You will be asked to provide a photo ID at check-in. On some occasions, according to your symptoms, “routine” vision exams turn out to be medical eye exams, and we want to be able to assist you in obtaining the highest level of benefit available.

If you have any questions, please call our appointment office at 755-6111 or 800-522-3937. We know how important your precious vision is, and we appreciate the opportunity to provide all your eye care needs. We look forward to meeting you and thank you for your trust!

Sincerely,

Patient Services Team
